## Congratulations on winning the 2014 Porsche Cayenne S!

You've won the 2014 Porsche Cayenne S for \$18,250!

We have successfully collected your buyer's fee of \$821.25.

Please contact the seller now to arrange payment and complete the sale. You can find the seller's contact information below. We have also shared your contact information with the seller.

**athompson1317's contact information:**

Austin Thompson

832-673-7354

We provide a quick and easy checklist for finalizing your purchase. View the [winner's page](#) to use the checklist.

### **TIPS FOR A SUCCESSFUL TRANSACTION**

*Many questions can be answered with our [Buyer FAQ page](#). We encourage you to start there!*

#### **Contacting the Seller:**

- We suggest contacting the seller as soon as possible and keeping in contact regularly while you finalize the transaction.
- Maintain a positive attitude. Deals are more likely to fall apart due to the behavior of the buyer and seller, rather than the vehicle itself. Be flexible and reasonable, and your transaction should be smooth.

#### **Paying for the Vehicle:**

- When buying from a private party, we recommend paying for the vehicle after the seller shows proof of ownership – usually a picture of the title, or current registration if there's a loan. When buying from a dealer, we recommend paying after you've completed the purchase contract, as dealers may not have the title readily available.
- If the vehicle has a loan, ask the seller how it will be paid off so that you can take delivery without issue. If your seller will be using proceeds from the sale to pay off the loan, note that some states can take several weeks to reissue a clear title. We strongly recommend having a Bill of Sale drawn up between you and the seller detailing the transaction specifics. Some states may require the title to be notarized by the seller before it can be transferred. We encourage you to check with your local DMV to see what will be required for you to transfer the vehicle into your name.

- We recommend using a cashier's check or wire transfer to complete payment, though cash or other payment forms are also acceptable depending on what you and the seller agree upon. Some sellers prefer to hold the vehicle until payment has cleared, so be sure to discuss this timeline with them.

**Note: Buyers are expected to pay for the vehicle in-full within one (1) week of the auction ending.**

#### **Bill of Sale:**

- You and the seller should create and both sign a clear Bill of Sale, including the terms of the transaction. We recommend using eForm's free service to generate an accurate Bill of Sale.

#### **Transportation:**

- Cars & Bids Shipping now offers door-to-door shipping! You can quote and book shipping directly from your [winner's page](#).
- Please review our [FAQ page](#), which answers additional questions about buying and selling on Cars & Bids.
